Re: Clarification – Changes of Results

GAL XLOKK Foundation is hereby publishing a clarification in relation to the results of measure 4 – Development of Green Infrastructure. After further checks, to all projects it has been verified that project with reference no: **GXF/4/003 – Zurrieq LC** and **GXF/4/010 – Xghajra LC** will be having an updated grant amount.

GXF/4/010 – Xghajra LC

It has been noted that contingency is not an eligible cost. In addition, section B1 of the submitted BOQ is also considered as ineligible cost. Section 7 of the guidance notes issued by GXF, indicates that provisional installations that are not directly related to the investment are considered as ineligible investments. Therefore, the updated grant amount for project with reference no: GXF/4/010 is: **€53,272.35 (Including VAT)**

GXF/4/003 – Zurrieq LC

After further checks and following an updated architect's Bill of Quantities submitted by the applicant, the Foundation has noted a number of changes pertaining to the project costs. Therefore, the updated grant amount for project with reference no: GXF/4/003 is: **€54,243.34 (including VAT)**.

The changes in both projects do not influence their targets and objectives. All original and evaluated line items presented in the Bill of Quantities will still be a crucial part of the projects. Therefore, the changes in the total eligible costs do not change the results of the evaluation concisely done by the Decision Committee.
